

# Future Care Mobile Dental Services

## Our Company Profile

### Who we are:

We are Australia's fastest growing mobile dental services provider.

Based on the premise that Australians are time-poor and look for the services they need to be flexible and mobile, our service was created to fulfil these needs.

### What we offer:

We have a large team of professionally qualified dentists, dental hygienists and dental assistants. Our service is focused on flexibility and mobility. We arrange to visit your students, your employees or your residents at a time and day that is convenient.

We offer our services to local schools, corporate workplaces and aged care facilities.

In the last year, we have visited hundreds of schools across both New South Wales and Victoria, along with scores of child care centres, aged care facilities and corporate businesses.

### Want to know more?

Our team can visit you at your location to discuss how we could work together to deliver dental services.

We are committed to our community, with our mission being to improve the dental hygiene of all Australians.
