Future Care Mobile Dental Services

We provide dental care that is affordable and convenient

- We provide affordable and flexible dental treatment in the comfort and convenience of your facility.
- We come to you and bring everything needed to provide quality dental care,
- Treatment is completed either at bedside or in our mobile clinic in the facility - no need to move the patients externally

Our difference

Customer Focus

Our solutions meet the needs of Aged Care facilities and Retirement Villages assisting those individuals who cannot access a traditional dental clinic. We work with our clients and discuss how we can help improve the dental health of the residents of every facility with direct positive benefits to each customer.

Complete Treatment

We offer a range of dental solutions for both residents and staff covering most dental needs.

Customer Access

We believe everyone should have access to dental care. We want to deliver quality, affordable and convenient dental services to all Australians.

Our “we come to you” attitude is breaking down the major barriers effecting dental wellbeing - that being lack of mobility, inconvenience, cost and waiting time.
